

A Giant Rack of Functionality in 1/3 RU

(Can you afford not to have one?)

New Direct Take Mix and U/D/C!

\$4,900 and 1/3 RU!

BrightEye NXT 410-H Clean HDMI Router

- 4 HDMI inputs, 1 HDMI output
- 2 Dedicated SDI inputs, 2 dedicated SDI outputs
- 1 SDI port that can be configured as an input or output
- 1 SFP cage that can take a single or dual fiber optic SFP
- 1 AC outlet required

Use the BrightEye NXT Router in front of production equipment to add more inputs, or to switch cameras in a boardroom or live event. Clean switches ensure your output never goes to black or glitches. See your sources live on the router's front panel LCD and take the guess work out of switching. Built-in test signals mean you don't need to burn an input for bars or black. Audio breakaway lets you choose audio from any camera or source, great for voice-overs at live events. Get the router you need for a whole lot less.

Why buy 8 RU of gear when a palm sized router does more for you and costs less?

\$9,310 and 8 RU

4 RU for a monitor = \$300	Audio mixer = \$550
1 RU for 2 frame syncs = \$1,850 x 2 = \$3,700	
1 RU for typical router = \$1,990	
1 RU for 5 HDMI to SDI converters = \$345 x 5 = \$1,725	
1 RU for bar generator = \$550	1 RU for U/D/C = \$495

11 AC outlets required (or more to accommodate wall warts)
